Growing Hope Together

Your commitment. Our projects.
A better future for people
in Africa and Asia.

Why Upendoimo?

*Hope begins where
people come together.*

Upendoimo e.V. is a nonprofit association of Catholic communities and individuals dedicated to social projects in Africa and Asia.

Together with our local partners, we promote projects that empower people and open up new perspectives – through access to clean water, education, skills training, sustainable energy and places of encounter and faith.

For us, help is not short-term aid,
but a shared investment in a better future.

Sustainability

We support projects that make a positive impact today and for tomorrow.

Partnership

Our partners know the people and the needs. Together, we develop solutions that work on site.

Dignity

Every person has inherent dignity and deserves respect, hope and a future.

Christian Neighborhood Love

Our faith inspires us – love must be shown in concrete actions.

We believe that
Christian love can change
the world – one person,
one project, one eased
suffering at a time.

“

No one can ease all the suffering in the world.
But easing one person's suffering can change the entire world. ”

What We Achieve

Our projects. Hope that becomes visible.

Every project we carry out is a concrete response to need.
Together with our local partners, we develop sustainable solutions
that improve lives and create lasting change.

Clean Water

Water is vital.
It sustains life,
health and the future.

Education

Education opens minds
and creates new
opportunities.

Food Security

No one should go hungry –
everyone deserves
a dignified life.

Places of Faith and Community

We create places where
faith is lived, people meet
and communities grow.

“

Together we can do so much.
Today we help. Tomorrow we change the future.

”
